European Mail Summary.

By the mail steamer yesterday we are put in possession of European news to March 12th, of which the following is a condensed summary:

Replying to the Mayor of Manchester, the Queen has consented to become a patron of the International Fruit, Flower, and Vegetable Show, which is to be held in Manchester in September next.

A telegram from Shanghai announces that the young Emperor of China formally assumed supreme power on Monday last, the day selected as propitious by the Astronomical Board.

In the House of Commons, on the 20th ult., Mr. Hardy gave notice that it was his intention to move an humble address to Her Majesty, praying that she would be pleased to direct that the communications addressed by Her Majesty's Government, in concert with the Government of the United States, to foreign Powers, inviting those Powers to accede to the three Rules laid down in the Treaty of Washington, should be accompanied by a declaration of the interpretation which Her Majesty's Government put upon those Rules. The day for Mr. Hardy's motion was subsequently fixed for March 21.

The auditor appointed by the Treasury to examine the accounts of the Metropolitan Board of Works has disallowed about £3,500 expended in the erection of seats for the accommodation of the vestries on Thanksgiving Day, February 27, 1872.

The *Daily News'* special correspondent at Vienna, in his account of the progress of the Exhibition there, said that untiring efforts were being made to have the building ready by the opening day, the 1st of May. Some of the galleries were quite finished, and only needed to be fitted up by the exhibitors. The immense dome, the largest ever attempted, was described by the correspondent as being to other domes what the Great Eastern was to other ocean steamers. Already, in anticipation of the influx of visitors this summer, rents had risen considerably; in one instance in the proportion of from 600 to 1,800 florins, and in another from 400 to 1,000 florins. Living, too, was twice as high as it was a few years ago. There was, however, great business prosperity to compensate for the general rise in prices.

The *Graphic* is said to be growing into one of the wealthiest journalistic properties in the world. It is certainly doing very well, and has merited success by the well-directed enterprise of its management and the excellence of the work done.

A public meeting in Edinburgh this week approved of erecting a colossal statue to John Knox, costing at least £5,000. £2,000 have already been subscribed.

The *Courrier de France* says that the Countess de Montijo, mother of the Empress Eugenie, has suddenly lost her eyesight.

On the 19th ult., at Thorn, in Prussia, the four-hundredth anniversary of the birthday of Copernicus was celebrated. Speeches were delivered by several scientific men, and a ball was given in the Town Hall. Copernicus was born at Thorn in 1473.

The death is announced of M. Armand Godard, one of the proprietors of the great glass-works of Baccarat, Meurthe. The deceased leaves a fortune of sixteen millions of francs.

One of the most notable incidents which has taken place in London lately is the announcement made at a temperance meeting last week by Mr. Charrington, the great brewer, that he had abjured his vocation because he had come to see the mischief which the trade in intoxicating drinks inflicted upon the morals of the people. The announcement was received with immense enthusiasm.

We regret to learn that Mr. Baron Channell died suddenly on Wednesday morning. The deceased judge was sixty-nine years of age, having been born in 1804. He was called to the bar in 1826, and was made a Baron of the Exchequer in 1857. He retired from the bench a few weeks since, and was succeeded by Mr. Baron Pollock.

THE QUEEN AT CHISELHURST.—The Queen accompanied by the Princess Beatrice on the 20th February paid a visit to the Empress Eugenie, at Chiselhurst. The Queen has, it is known, long contemplated a personal expression of condolence with the Empress in her sorrow; and the feeling which her Majesty has been disirous of placing on record, with respect to her faithful ally, the Emperior Napoleon III., has been also indicated by the offering which she has made of a tomb, to be placed within a chapel which the Empress is about to raise for the reception of the Imperial remains. Arriving at the station, the Royal party proceeded first to the little chapel and entered the now historical church of St. Mary's in the lane by Chiselhurst Common, the Queen remained some time before the Emperor's tomb. The wreaths are there which had been heaped in a sad profusion when the coffin was first carried into the diminutive chapel. Among those wreaths the Queen noticed the mortuary tributes which she herself, her sons, and her daughters had sent. Leaving the tomb after a while, Her Majesty was led by Mr. Goddard, the priest, to an outer site very near the church, where is to be erected by the Empress, and dedicated to the Virgin, that little chapel within which will be placed the tomb of Scotch ranite, offered by the Queen. This newly-planned sarcophagus is already in course of construction, will resemble in form and fashion that which holds the remains of the Duchess of Kent. Having surveyed the ground of the intended chapel, Her Majesty quitted the small, neatly-kept cemetery of St Mary's Church, and re-entering the carriage, was conveyed to Camden-place. On the steps of the entrance porch the Queen was received by the Empress and her son. That the meeting was one, indeed, of a most sympathetic kind may well be imagined. Their Majesties retired together to the private apartment of the Empress, while the Prince Napoleon, the Princess Beatrice, and the Princess Murat remained in the *salon de reception*. Having taken an affectionate leave of the Empress and the Prince Napoleon, Her Majesty drove back to Chiselhurst Station, and returning to Windsor by way of Newcross, London Bridge, Waterloo, and Staines, terminating the railway journey at about a quarter past one o'clock. Her Majesty and the Princess Beatrice then drove to the Castle.

THE BAY VERTE CANAL.—It is believed at Ottawa that no time will be lost by the Government in proceeding with the canal across the Isthmus, connecting Nova Scotia with New Brunswick, generally known as the Bay Verte Canal The people of the Maritime Provinces, especially of New Brunswick, have been getting very impatient at the delay that has occurred, but it was inevitable in the face of the conflicting reports as to the best route; but we understand that difficulty has now been surmounted and the recommendation of Mr. Samuel Keefer has been adopted, The completion of this work will be a great boon to the commerce of New Brunswick and Nova Scotia. A distance of at least five hundred miles will be saved to the people of the town, on the North of Gulf shore of New Brunswick when they send their merchandize to the ports of New England. More than that, it will be most advantageous to the people of Prince Edward Island, who have now to go round Cape Breton, or through the Gulf of Canso, on their way to the United States:—*Ottawa Citizen.*

Central America.

[DATES TO MARCH 13TH.]

Shocks of earthquake continue to be felt in the unfortunate city of St. Vicente. The greater part of the houses in the valley of the Lempe are uninhabitable. About four miles distant from the city toward the east there is a plain called Earthquake Plain, with a hill in it near the confluence of the Achahuapa with the Ismatac, where the shocks are more frequent and severe than in the city. At every shock great rocks roll down from the neighboring hills, and in "earthquake hills" deep and broad ravines opened up some 400 yards long. In this region it is feared that a volcanic eruption is about to take place.

The chronic revolution is under full operation in Guatemala.

HONDURAS.

The latest news from this Republic is, that about the beginning of January disturbances were produced by a band of incendiary assassins in the Department of Choluteca. From subsequent reports and private letters received in Salvador, it was seen that there were isolated acts of robbery which were not connected with any particular party or movement. The Government has kept up an active pursuit of these outlaws, and those caught have been severely punished.

NICARAGUA.

The United States Exploring Expedition has finished its labors with respect to the country east of the Nicaragua, and is now about to proceed to examine the lines from San Carlos to San Juan del Norte, Point Moso and other adjacent points on the Atlantic Coast.

The rivers of Sapoa, Las Lajas, en medio, Gil Gonzales, Ojhomego and the line of Buenavista, have all been carefully examined. Of these routes only three are practicable. All terminate in the Pacific in Port Brito.

Japan.

The following items are gleamed from the *Gazette* of March 10th:

The proposition to a low foreigners to travel in the interior, subject to Japanese laws, has been rejected by the Ministers, because Japan possesses no writen Code.

The Peruvian Envoy arrived on the 27th of February, and has been lodged in the State mansion of Hami-go-ten. Senor Garcia, the Commissioner, has been received by the Mikada, and is now endeavoring to arrange a treaty of amity and commerce for Peru. The Japanese Ministers are willing to enter into the desired treaty, but refuse to concede extritoriality right.

Real liberty of faith is not yet allowed, though the edicts against Christianity have been removed from the "notice" boards. In Yoza it is said six hundred Christians are still treated as criminals.

All Japanese subjects over twenty are conscripted to serve in the army or navy for three years. The Prussian plan is adopted as to reserves and promotions. The military force will be 46,360 for a war footing, with a standing army of 31,680, and 4 880 household troops.

It is believed that the Government will shortly open for foreign trade the ports of Saga, Satsuma, Chikuzen Bungo and Kokura.

The railway to Yedo is to be leased to a company of merchants.

A newspaper makes its appearance every week in Japan.

The improvements in Osaka Harbor are to cost $3,150,000.

The volcano Aso, in Shirakawaken, was agitated in the latter part of November, and discharged large quantities of boiling water into the river. For fifteen miles along the river, down to the sea, the fish were poisoned.

The *Mail* gives a kind article to Minister DeLong, whose recall is taken for granted in Yokohama.

Minister Mor's proposition to adopt the English language, simplified phonetically, as the future language for Japan, is considerably discussed, the native language being unsuited for writing or printing.

An American is in Japan, making the necessary arrangements for postal treaties with the various powers.

China.

A junk has been seized at Swatow having on board some stolen telegraphic cable probably a portion of the great Northern line.

The Viceroy of Nanking has conferred a Chinese order upon Captain Authur, of H. M. S. "Iron Duke," and Dr. McCartee, of Shanghai, for their shares in aiding the investigation into the "Maria Luz" case.

Telegraphic communication between Shanghai and Nagasaki is re-established.

The French Consul at Hankow has left for Szchuen to settle some claims for the burning of a roman Catholic chapel and other outrages.

Postal cards have been introduced at Shanghi.

F. F. Low, U. S. Minister at Pekin, leaves for home in the Spring.

Thirty thousand soldiers have been despatched from Li Hung Chang's army to Cansuh, to meet the Mahomedons.

The Serica was lost on the Paracels, about the 23d of October last. All hands were lost except one man, who is now at Turon.

The steamship Phase, chartered by the Japanese to convey contribution to the Vienna Exposition, left for Europe on the 7th.

Prince King has expressed in strong terms the gratification with which he has heard of the cordial reception of the Chinese Educational Mission in the United States.

The new anglo-Chinese school at Shanghai, just erected in the Upper Yuen-ming-yuen Road, close to the Soo-chow Creek, will be shortly opened for the reception of scolars. The school will enable Chinese youth to acquire the English language and such other branches of useful knowledge as will in many instances practically amount to a profession, besides forming a wider range of education and attainments.

Police Court.

[Before A. C. Elliott, Esq.]

THURSDAY, April 10th.

Thomas Sweeney, remanded again for one week.

Matthew Hurly, given in charge to constables Bloomfield and Clarke, by Henry Saunders, charged with using threatening language towards the said Henery Saunders, was remanded for one week.

Sandwich Islands.

The San Francisco *Alta* correspondent writing from Honolulu, March 18th, says:—

From all the islands I learn that there is plenty of rain fallen, falling or about to fall. It is exasperating to see such splendid fields of sugar cane as we have, being grown for the benefit of everybody but the planter. But it is so.

Literally we are doing nothing. On the "Beach"—our exchange—the happiest man you meet is the one owes the most. If you see a party with a self-satisfied smirk on his visage, you can be tolerably sure that he has met a dun with, "I would if I could, but times are so dull that I havn't got a red; now if we can get recip—;" at which point his creditor d—ns reciprocity, the country, and everything in it.

The P. C. *Advertiser* gets up and goes for the ministry in a long editorial, in which they charge them first, with practising a do-nothing policy like their predecessors, and of carrying themselves stiff-neckedly toward the people. Later, the writer having received some fresh information, declares that it is "now" known that the ministers have determined to oppose any negotiations with the United States, and demands to be answered. That "fetched" them.

Last Wednesday's *Gazette* came out with a long leader, in which it is clearly shown that it would not be dignified in the ministry to tell what they were going to do until they had done it, and that they had done considerable.

Then follow copies of an official correspondence between our Foreign Minister and Hon. Mr. Pierce, the American minister resident, in which the head of our foreign office says that we are willing to overlook the fact that our previous overtures to bring about reciprocity have been disregarded, and once more we would ask Uncle Sam to take pity upon us, and let us make sugar for him—at a profit to ourselves.

The U. S. minister resident responds by saying that the note has been received; that he has no instructions from his government that applys to the matter contained therein that he will forward the correspondence to Washington, and finally that he "has the honor to remain," etc.

THE ENGLISH REPRESENTATIVE SHOOTS HIS MOUTH OFF.

The expression may not be a very elegant one, but it expresses the action of acting British Commissioner Davies—his name is Davis, but it sounds more nobby, you know, to say Da-v-e-e-e-s; Theophilus (Thistlewaite, I think) Davies. He has considered it his duty to "protest" against any scheme for establishing reciprocity between the United States and this country.

The following is a summary of the census of 1872:—

Natives, 49,044; half-castes, 2,487; Chinese, 1,938; Americans, 889; Hawaiian born, foreign parentage, 849; Britons, 619; Portuguese, 395; German, 224; French, 89; other foreigners, 364. Total population, 56,897.

Natives in 1866, 58,765; natives in 1872, 51,531. Decrease since 1866, 7,234.

Foreigners in 1872, 5,336; foreigners in 1866, 4,194. Increase of foreigners since 1866, 1,172. Total decrease since 1866, 6,062.

New Zealand.

The *Daily Southern Cross* says: Mr. Vogel—we gather from the papers which mainly make surmises, as the proceedings are kept secret—offered to make Sydney the terminus of Webb's line, provided the conference would exercise its influence to obtain the American and English subsidies; but this proposal was not supported, as the government of New South Wales had an offer of modern boats to carry the mails for £48,000, with the agreement that all subsidies received outside of the colony should go in reduction of that sum. Latest news says that a variety of conflicting interests are likely to prevent any arrangement being arrived at, especially as the Victorian delegates adhere to their resolution to make Melbourne the terminus of the Suez route.

The foot and mouth disease has been introduced into Canterbury by some sheep imported from England.

Over two thousand natives were present at the Maori king meeting at Maungatautari There was great feasting, but the talk amounted absolutely to nothing. At the meeting one of the chiefs asserted that he should sell and lease his land against the wishes of the king, because he had become habituated to the use of a shirt, and he could not procure that article unless he sold or leased some of his land.

The Maori king was in waiting to receive the Governor if he had presented himself.

The Customs revenue for the colony for the quarter ending December 31st, was £210,807 against £193 097 for the corresponding quarter of 1871.

Mr. Vogel, who so successfully negotiated the San Francisco mail service contract with Mr. Webb, has been invested with the title of "honorable" for life, by the Imperial government. The dignity has been well earned.

His Excellency Governor Bowen, before leaving New Zealand for Victoria, will attend a large meeting of natives at Ngaruawahia, in the Waikato. He will also unveil the statue, which has been erected of Oamaruno stone, by the colonial government, to the old Maori chief Tamati Waade, who proved such a firm friend to the Europeans at the time of the war at the sacking of Kororareka.

Java.

The price of rice continues to rule high throughout Java, but according to reports there is no fear of a famine.

The tea planters in Java have addressed a memorial to the Governor General of the Netherlands India, protesting against the export duty of 1f. per 100 kilogrammes to be levied on that product after the 1st of January, 1873.

The *Java Bode* of February 4th states that the reasons assigned for the coming over of Rajah Brooke to Java are, that he wishes to sell his principality in Northern Borneo to the Netherlands India government. His proposals have been rejected, because the form of government at Sarawak, which was to remain unchanged in case the transfer took place, is arranged on too costly a scale.

SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DESPATCHES.

EASTERN STATES.

NEW HAVEN, Conn., April 9.—A terrible accident occurred this evening at Middletown; about 4 o'clock a brick building known as Sheppard's Block fell in, burying 15 men; six bodies have been recovered up to the present.

NEW YORK, April 9.—The gas men and police came in conflict last evening; after a short and sharp tussle the policemen came out victorious.

CHICAGO, April 9.—A special from New York says a terrible riot occurred at Fordham, Long Island, yesterday evening, growing out of the election of School trustees. The police were powerless to stop it and at last accounts a regular pitched battle was in progression. It is believed that many of the participants were seriously hurt, if indeed none were killed.

POUGHKEEPSIE, April 9.—The western bound passengers who passed through last night, returned this noon to New York, being unable to get through on the Central Pacific railroad.

EUROPE.

LONDON, March 9.—In a conflict this morning in Kingsdale, Ireland, between the fishermen on a strike, and the police, two of the former were killed and several injured.

BERLIN, March 9.—The Emperor William, Prince Bismarck, and Von Moltke, accompanied by a brilliant retinue, will leave for St. Petersburg on a visit to the Czar, on the 25th, while the Crown Prince Frederick, son and wife, depart for Vienna the following day.

MADRID, April 9.—General Sabats, a Carlist chieftain, with a force of insurgents, is within six kilometres of the town of Pinceroda, in the Province of Gerona, and an attack is expected. The women are fleeing from the town, and men are preparing to defend the place.

ROME, April 9.—The Pope suffered considerably yesterday, but is better to-day, although still confined to his bed.

SCIENTIFIC EXPERIMENT.—Yesterday a scientific experiment in the explosion of a torpedo invented by Captain Stanley, of H.M.S. Peterel, took place in Esquimalt harbor. Quite a number of ladies and gentlemen were present, being entertained by Capt. Stanley and the officers of the ship. Amongst the brilliant assemblage were His Excellency the Lieut. Governor, Mrs. Joseph Trutch, Miss Pinder, Miss DeVeulle, Misses McKenzie, Misses Munroe, Miss Galley, Mrs. J. Anderson, Mrs. Autridge, Mrs. McKenzie, Captain and Mrs. Start, Mr. and Mrs. Pooley, Mr. and Mrs. Drake, the Rev. Mr. Autridge, Dr. J. B. Matthews, Thomas H. Tye, Esq., J. Anderson, Esq., and the officers of H.M. ships Tenedos and Boxer. The explosion of the torpedo was a perfect success, hurling a pyramid of water some sixty feet into the air, with great vehemence, thus demonstrating its undoubted value as a naval acquisition. After partaking of lunch, the company indulged in an *impromptu* dance on the deck of the Peterel, evidently enjoying the fascinating amusement, no less than witnessing the experiment.

FROM SAN FRANCISCO.—The steamer Prince Alfred arrived here yesterday at three p. m., from San Francisco, making the trip in a little over 4½ days, with head winds prevailing during the entire passage. She brings 370 tons of freight and 102 passengers—the largest number arrived here per any trip for several years. The following is a list of the cabin passengers: Sam Kee, wife and child, P. Murphy and wife, L. Oppenheim, James Crosson, Mrs. T. G. Williams, E. G. Farnham, T. DeNouvion, Ben. Gati, Mrs. F. Thornber, Henry P Smith, John Galbraith, W. E. Sanford, J. H. Todd, S. L. Bohanon, E. H. Bohanon, Frank Shinn, R A. Shinn, Adam Watson, B. F. Clayton, Wm. Humphreys, Ben. Healy, M. Paddin, Lindhardt and wife, Wm. Grase, wife and two children, Dr. Moss and wife, R.N., C. Strouss, G. McLeod, and 67 in the steerage.

THE DOMINION TAKING ACTION ON THE DISASTER.—OTTAWA, April 3.—In Parliament last night, a discussion took place with reference to the Atlantic disaster, when it was stated that the Government had ordered a searching investigation. An appropriation was made during the last session of Parliament for the erection of a lighthouse at the point where the accident occurred. It was deeply regretted that it was not erected in time to have prevented the disaster.

FROM THE SOUND.—The steamer North Pacific arrived here late yesterday afternoon, with mails—English, Canadian and American—passengers and freight from Olympia and way ports on the Sound. The following is a list of the arrivals: Miss Wren, Capt. Williamson, Messrs. Barrot, Kennedy, Sullivan, Spirlock, Jackson, Ross, Conden and son, Arding, Francis, Gilbert, Calvin, McDonald, Nelson, Poole, 5 Chinamen, 4 Indians.

OXFORD AND CAMBRIDGE "COMPETS" IN BILLIARDS, ETC.—The competitive spirit between the under-graduates of Oxford and Cambridge Universities continues. There have been billiard matches, running, jumping and other athletic contests, in which honors have been equally divided between the light and dark blues.

SHOTHORN BULL EXPORTED.—The North Pacific carried away this morning for Puget Sound Dr. Tolmie's handsome white shorthorn bull, Parrott, originally from the herd of John Parrott, Esq., of San Francisco. The bull has been purchased by Geo. J. Kyle Esq., of St. Laquish, Washington Territory, who has been for some days in town.

TO ARRIVE.—The bark Moneynick sailed from San Francisco on the 6th inst., with 200 tons of freight—assorted merchandise—consigned to J. P. Davies & Co., of this city. Another vessel will be placed on the berth early in May, for the same firm.

COMMITTEES OF THE SENATE, OTTAWA.—The British Columbia Senators appointed on Committees of the Senate are: McDonald, on Banking, Commerce and Railways; Carrall, on Public Accounts, and Printing.

THE RACE MEETING.—Announced for yesterday afternoon, is postponed until Saturday evening at eight o'clock.

BASE BALL.—A practice game of Base Ball will be held to day at Beacon Hill.

PASSOVER.—The Jewish Feast of the Passover commences to-day at sunset.

PERSONAL.—Among the passengers by the Prince Alfred yesterday, were Mrs. Williams, wife of Mr. Registrar Williams, formerly of Victoria, Dr. Moss, R.N., and wife, W. E. Sanford, (S. R. V.,) Hamilton, Ont., J. H. Todd, Esq., Barkerville, Mr. Lindhart and wife, Lightning creek, and Messrs. Humphreys, Bohannon, DeNouvion, and others.

AN ACQUISITION.—The proprietor of the Driard House—H. Cazaban—has just erected a splendid English billiard table in the large hall adjoining the bar, which will prove a great acquisition to the establishment, and doubtless be duly appreciated by guests.

CRICKET.—A match takes place to-day at Beacon Hill, between two picked teams. Wickets will be pitched at 10:30 punctually, and as the ground is in good order, excellent form may be expected from some of the players.

PUBLIC SCHOOLS.—The Trustees of the City Schools want a person to do the cleaning of the schools, washing, &c., and chopping firewood for the balance of the year. Application by tender must be made to the Board.

THANKS are due from us to Mr. Dousel, purser of the steamer Prince Alfred, for files of late San Francisco papers. Messrs. Wells, Fargo & Co.'s usual favors, however, failed to put in an appearance.

U. S. MINISTERS IN ASIA.—Minister DeLong has resigned his mission to Japan. The Minister to China, Mr. Low, will leave for Washington in the course of the summer.

MORE THAN USUAL.—The steamer Prince Alfred imported no less than 102 passengers yesterday—considerably more than have arrived here per any trip for some time past.

THE schooner Isabella, which went on the rocks at the mouth of the harbor a few weeks since, has been repaired by Messrs. Meldrum & Sea, and is ready for sea again.

NEW LINE OF STAGES.—Mr. W. J. Jeffree has received a dispatch stating that Messrs. Pearson Bros. will start an express from Yale on the 21st, for Barkerville, Cariboo.

TO SAIL.—The steamer Prince Alfred, will leave the wharf at noon to-morrow for the outer harbor, whence she will sail for San Francisco at two p. m.

THE COMPANY IS FORMED FOR the purpose of acquiring the property known as the Belmont Factory, situate on Esquimalt Harbor, and the business carried on therein, consisting of Tanning, and Boot and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of labor.

The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

The sales for 1872 amounted to nearly $30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the Custom House for the year 1871, was about $400,000, representing a selling value, after adding duties, etc., of say $150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

The Tannery operations only commenced in August last, and as the tanning process involves a period of several months, the business of this Department is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c, in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realized.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent. has first been paid to the new shareholders.

Applications for shares may be made to the Secretary pro tem., the Bank of British Columbia, or to Messrs. Drake & Jackson. mar21
